

STA1R-1HG/1HS-HC

Designed using the highest quality materials and components to provide the user with colder product temperatures, lower utility costs and exceptional food safety. Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP). High capacity, factory balanced, refrigeration system holds 33°F to 38°F (.5°C to 3.3°C) for best food preservation in extreme conditions. Exterior – stainless steel doors, front, & sides. Interior – aluminum side walls & back. Stainless steel floor & ceiling. Glass half door – “Low-E”, double pane thermal insulated glass. Solid half door – Stainless steel Three (3) Heavy duty, chrome plated, wire shelves per section. Positive seal self-closing door with 120° stay open feature. Lifetime guaranteed door hinges. Lifetime guaranteed heavy duty all metal working door handle. Entire cabinet structure and solid door are foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
