

STG1F-2HS-HC

Designed using the highest quality materials and components to provide the user with colder product temperatures, lower utility costs and exceptional food safety. Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP). High capacity, factory balanced refrigeration system that maintains -10°F (-23.3°C) temperatures. Ideal for both frozen foods and ice cream. Exterior – stainless steel doors and front, with matching aluminum sides. Interior – aluminum side walls and back. Stainless steel floor and ceiling. (3) Heavy duty, PVC coated, wire shelves per section. Positive seal self-closing door with 120° stay open feature. Lifetime guaranteed door hinges. Lifetime guaranteed heavy duty chrome extruded door handles. Entire cabinet structure and solid door are foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
