

# T-24-GC-HC

True's glass and plate chiller/frosters are designed with enduring quality and value. Our commitment to using the highest quality materials and oversized refrigeration assures colder product temperatures and years of trouble free service. Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydro carbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP). Large storage capacity to meet the supply and demand requirements during peak hours. High capacity, factory balanced refrigeration system that maintains cabinet of 0°F (-17.7°C) and below. Forced-air cooling, positively guided airflow provide efficient balanced temperatures throughout the cabinet. This unique design ensures fast frosting of dry glasses and plates. Exterior – Stainless steel countertop and lid, black powder coated cold rolled steel front, sides, and back. Interior – long lasting, heavy duty galvanized steel.
