TGN Series:

Reach-In Glass Swing 2 Door Refrigerator with Hydrocarbon Refrigerant

TGN-2R-2G

- ▶ True's glass door reach-ins are designed with enduring quality that protects your long term investment.
- ▶ Designed using the highest quality materials and components to provide the user with colder product temperatures, lower utility costs, exceptional food safety and the best value in today's food service marketplace.
- ▶ R290 Hydrocarbon Refrigerant.
- ▶ High capacity, factory balanced refrigeration system that maintains 32°F to 41°F (0°C to 5°C) temperatures.
- ▶ Exterior - Stainless steel front. Aluminum ends and GalFan back and top.
- ▶ Interior - Clear coated aluminum, stainless steel floor.
- ▶ Gastronorm slides with six (6) gray wire shelves.
- ▶ Exterior Temperature Display.
- ▶ Field Reversible Door Hinging.
- ▶ Barrel Door Locks.
- ▶ True's self-cleaning reverse condensing unit technology eliminate the need to clean the condenser coil by reversing the fan direction upon each startup of the unit, which causes air to blow through the condensing coil and effectively removes any dirt, dust, and debris.

Bottom mounted units feature:

- ▶ "No stoop" lower shelf.
- ▶ Compressor performs in coolest, most grease free area of kitchen.
- ▶ Easily accessible condenser coil for cleaning.

True®

STANDARD FEATURES

DESIGN

- True's commitment to using the highest quality materials and oversized refrigeration systems provides the user with colder product temperatures, lower utility costs, exceptional food safety and the best value in today's food service marketplace.

REFRIGERATION SYSTEM

- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & 0.02 global warming potential (GWP).
- High capacity, factory balanced refrigeration system that maintains cabinet temperatures of 32°F to 41°F (0°C to 5°C) for the best in food preservation.
- State of the art, electronically commutated evaporator and condenser fan motors. ECM motors operate at higher peak efficiencies and move a more consistent volume of air which produces less heat, reduces energy consumption and provides greater motor reliability.
- Bottom mounted condensing unit positioned for easy cleaning. Compressor runs in coolest and most grease free area of the kitchen. Allows for storage area on top of unit.
- Automatic defrost system time-initiated, temperature-terminated. Saves energy consumption and provides shortest possible defrost cycle.
- True's self-cleaning reverse condensing unit technology eliminate the need to clean the condenser coil by reversing the fan direction upon each startup of the unit, which causes air to blow through the condensing coil and effectively removes any dirt, dust, and debris.

CABINET CONSTRUCTION

- Exterior - Stainless steel front. Anodized quality aluminum ends. Corrosion resistant GalFan coated steel back and top.
- Interior - Clear coated aluminium, stainless steel base.
- Insulation - entire cabinet structure and solid door are foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.
- Frame rail fitted with 4" (102 mm) diameter stem castors - locks provided on front set.

DOORS

- "Low-E", double pane thermal glass assembly with extruded aluminum frame.
- Barrel locks standard.
- Door fitted with 15" (381 mm) long extruded heavy duty handle.
- Magnetic door gasket of one piece construction, removable without tools for ease of cleaning.
- Field reversible door hinging.

SHELVING

- Gastronorm slides with six (6) gray wire shelves 20 7/8" L x 25 19/32" D (531 mm x 650 mm).
- Shelf support pilasters made of same material as cabinet interior; shelves are adjustable on 1/2" (13 mm) increments.

LIGHTING

- LED Interior lighting.

MODEL FEATURES

- Exterior temperature display.
- Evaporator is epoxy coated to eliminate the potential of corrosion.

ELECTRICAL

- Unit completely pre-wired at factory and ready for final connection to a 120/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

115/60/1
NEMA-5-15R

OPTIONAL FEATURES/ACCESSORIES

Upcharge and lead times may apply.

- ☐ 220-240V/50-60Hz
- ☐ 4" (102 mm) legs.
- ☐ 6" (153 mm) legs.
- ☐ 6" (153 mm) seismic/flanged legs.
- ☐ Additional shelves.
- ☐ Additional slides.
- ☐ #1 Angled tray slide kit
- ☐ #3 Universal tray slide kit
